Mid-June to Mid-September 2018

Situation Update

Ear Centre of Green Pastures Hospital (GPH) continues to provide treatment to hearing impairment and ear related disease through its quality yet affordable services. During the reporting period, 3,806 people visited OPD services and 50 patients received surgeries.

Initiation of Ear Care Community Work

Dr. Mike along with the Mr. Eka Dev- Ear Centre's co-ordinator and the two newly recruited Ear Care Practitioners visited community of Mid-West (Banke, Bardiya and Surkhet) in September. The team observed community work done by Nepalgunj hospital. This has initiated as part of the Ear Centre's Community work through networking and collaboration.

Research

Dr. Mike is writing two medical papers, one of these so far accepted for publication in peer reviewed journal.

New recruitments

- Biraj Bhattarai
Language and Speech Therapist
- Prabuddha Bhattarai
Audiologist
- Subina Gurung- OPD assistant
- Surya Pokharel- Ear Care Practitioner

- Subhas Paudel- Ear Care Practitioner

- Nita Sripali- Ear Care Worker

- Srijana Chetri- Ear Care Worker

Quarterly Achievement

9(6M, 3F) persons benefitted during the reporting period with the Medical Charity Support from Ear Aid Nepal (EAN). In total, NPR 84,400 was supported through EAN. The tables below gives more detail of these patients. Through EAN support, patients like Shante Pariyar (story in later section) are able to hear now!!

	Total						Rs 33,900/-		

Appendices

Appendix 1: Case Stories

Case Story

Shante Pariyar (14, M) is from Myagdi District, one of the rural districts in Western Nepal. He recently underwent his right ear surgery at the Ear Centre.

Shante had problems in his both ears, his right ear more severe, since he was nine year old. There used to constant discharge of water and often blood from his both ears. Shante couldn't even hear properly since then. Because of the hearing problem, Shante discontinued his study after grade four. His family took him to nearby health post and later to one of the leading private hospital in Pokhara. Shante received his first surgery in the private hospital five years ago. The problem got relapsed during this period with development of an external wound behind the right ear.

Shante's aunt visited Pokhara and got to hear about the Ear Centre. She told Shante's mother to take him for the treatment. The family had no money even for travelling to Pokhara. Shante's neighbors and relatives supported them travel fare. After proper assessment, Shante underwent surgery of his right ear. His cost has been covered through the hospital's Medical Charity Fund.

The Pariyar family are thankful to receive the support from the hospital.
