

International Nepal Fellowship

Project/Section's Name:

Ear Medical Charity Support to Poor patients

Document Title:

Quarterly report: **Mid-Sept to Mid-Dec 2017**

Date when document was written:

22 December 2017

Section A: Basic Information

Contact Details

Name : Nalome Rongong
Job Title : Funding & Marketing Manager
Address : International Nepal Fellowship
Health Services Department, Pokhara, Nepal
PO Box 28
Tel : +977 [0]61 430950
E-mail : fm.manager@health.nepal.inf.org
Website : www.inf.org

Name/Role of person approving report:

Dhaka Ram Budha Magar
Operations Director
INF Nepal Health Services Department

Start date of the project:

Mid June 2017

Period covered by the report:

Mid-Sept to Mid-Dec 2017

Situation Update

After a long break of four months, Dr. Mike Smith could resume his work at the Ear Centre. Under his supervision and direct involvement, 113 surgeries (major, intermediaries and minor) could be done during the reporting period. Besides this, the number of patients visiting for outpatient department (OPD) has increased dramatically. In total, 2463 patients visited the OPD for their checkup and follow up.

With an objective of providing free medical examination to community people, a three-day free medical camp was organized by INF at Thawang from 17-19th January 2017. In total, 575 patients from Thawang and neighboring VDCs. Out of these beneficiaries, 21 children were identified with need of ear surgery and were referred to the Ear Centre at Pokhara for surgical intervention. The children along with their care takers stayed in the hospital premises from 14-24 November 2017. The surgical and all other applicable costs were covered by INF North America and Ear Aid Nepal.

Quarterly Achievement

Every year, there are many patients needing additional treatment or support due to their poor financial condition. For these patients/ clients, the hospital uses its Medical Charity so that those needing treatment aren't deprived of it because of being poor.

27(11M, 16F) persons benefitted during the reporting period with the Medical Charity Support from Ear Aid Nepal (EAN). In total, NRP 208,101 was supported through EAN. Some of them had chronic ear disease while some had hearing loss. All of the patients contributed to the cost willingly. The tables below gives more detail of these patients.

Appendices

Appendix 1: Case Story

Daljita and Bisham are siblings and they share similar story of their hearing problem. In 2012, Bisham (then in grade one) had his ear filled with water while swimming and came home crying in pain. His father, Jun Bahadur tried local treatment. He put mustard oil into Bisham's ear and assured him that everything will be fine. However this didn't help the little boy. To add to the woes of Jun Bahadur, his daughter (then in grade two) had similar ear problem.

The local treatment did not improve their situation. When Jun Bahadur tried for treatment of both his children in a hospital in Butwal, the nearest city from their village, he was told that the treatment would cost one hundred fifty thousand rupees, an amount which Jun Bahadur could not afford. The children continued to suffer from the ailment until they were provided ear surgery by INF Nepal. Their six years of suffering included ear ache, discharge of fluid, social stigma and isolation in school from their peers and even harsh words from their teacher for not listening the teaching properly.

Daljita and Bisham seems happy with their parents after the ear operation by INF ear Hospital, Pokhara

Jun Bahadur, following the advice of his neighbor, came to Rolpa camp in January 2017 with his two children. The medical team registered the name of Daljita and Bisham for surgery and their surgery was done on 16th and 24th November respectively in GPH's Ear Centre. The family hope that the surgery will finally end their six years of suffering and the children will have their normal life back. Jun Bahadur shares, "Without INF's support, the problem could have become more serious", The Buda family are thankful for helping the two children.
